December 5, 1986

MEMORANDUM

SUBJECT: Inventory of Items Transferred to the Holden Facility

FROM: George Hess GKH  
FIRE/EP&R/ENSV

TO: Scott Pemberton  
CNSL

November 20, 1986

- 2 - 55-gallon open-top drums (blue) from the Hayes property (soil from spill cleanup) placed in the American Steel portion of the Holden facility

December 2-3, 1986

- 160 - Empty 55-gallon drums painted light blue
- 1 - Short vat with lid (approximately 250-300 gallon)
- 1 - Sanstorm Manufacturing Company sandblast tank
- 1 - Crated machine from the Torquepac Company
- 9 - 55-gallon open, open-top drums of miscellaneous debris (pipe fittings, electrical items) approximately 1/2 to 3/4 full
- 2 - 55-Gallon drums from the Dwight Thomas property (1 drum is black with "04-46" stenciled in white and is 3/4 full - 1 drum is red and 1/2 full)

All the above items were placed in the American Steel portion of the Holden facility. The Bentley automobile, which was removed on December 3, was placed in the south end of the south warehouse at the Holden facility.
